Desktop — A version of DRS that is installed on your local PC. Perfect for small businesses.	✓	✓	✓	✗

Do you need to focus
on your core business and
outsource your planning project?

Let our team manage the planning process
for you. We develop, publish and maintain
plans for many of our clients.

DRS Magic Link - *A connecting element within the DRS planning software that automatically keeps your Plans up-to-date.*

At TAMP, we realize plan maintenance can be time-consuming and difficult. For over 10 years, DRS has been the industry's easiest-to-use planning software.   And now with Magic Links, your Plans are always current.

DRS is a simple, powerful and affordable planning solution. Just listen to what our customers have to say...

"I can't imagine trying to maintain my plans without these DRS Magic Links. They work like a charm. The 37 Plans I manage are always up-to-date."

- Jessica Thomas, Penta Associates

"TAMP and DRS has helped us expedite our disaster plan and reporting. They provide us with a great service and a robust product at a great price."

- Bill Pepino, Manager, Bloomberg

"We needed a tool to help us establish Business Continuity Plans in several locations in a short period of time. The quality is good and the service has always been exceptional. I am a skeptic when it comes to promises from vendors. I have never regretted purchasing this product."

- Fred Trathen, Business Continuity Planner, CNA Insurance

"DRS helped us build a disaster recovery plan for all our companies. Great quality."

- Andy Lippo, Director of IS, Standex International

"We needed a sound, well prepared disaster recovery plan. With DRS we were able to present to our regulators a viable plan."

- Scott Neils, Compliance Officer - Bank of Whitman

"It's simple to use and it made my job easy. Our auditors said that our plan is the best they have ever seen."

- David Glenn, IT Technician, Lakeland Industries, Inc.
